

TEACHING CREATION SCIENCE FROM A BIBLICAL PERSPECTIVE

*Effectively Teach Students
from a Biblical Perspective in
many Disciplines of Science*

Join **Joseph Hubbard**
(director of **Creation
Research UK**) as you
explore the world around
you through the lens of
Creation Science, learning
how to teach students
from a Biblical
perspective. Eight
webinars covering such
topics as Creation &
Science, Geology and
Fossils are available by
VOD (Video On Demand)

***Teaching Creation Science from a Biblical
Perspective – an overview***

What is a Biblical Worldview?

Creation & Science

Geology

Fossils

Biblical Archaeology

Anthropology

Astronomy

A strong partnership

Nilsbird training has partnered with Creation Research UK and its director, **Joseph Hubbard**, to bring a series of webinars that will strengthen the beliefs of teachers, and others, who stand for the truth and integrity of the Bible.

The eight 1-hour VOD webinars are all designed around the theme of *Teaching Creation Science From A Biblical Perspective*. Throughout the webinars, **Joseph** brings his immense knowledge and understanding to the subject content.

With extensive experience of debates, giving seminars and leading field trips, along with a vast knowledge of many subjects including geology, palaeobiology and zoology, **Joseph** has written online articles and appeared in print including The Rocks Cry Out series. His international trips have involved visits to Australia and the USA where he has arranged and carried out speaking tours, and been involved with research. **Joseph's** passion is to equip teachers and education leaders in effectively presenting studies from a Biblical perspective with a hands-on and interactive approach.

Introduction

Teaching Creation Science from a Biblical Perspective is a series of eight 1-hour VOD webinars that will strengthen the beliefs of teachers, and others, who stand for the truth and integrity of the Bible. The series will demonstrate how to effectively teach students from a Biblical perspective in many disciplines of science.

Webinar information

Teaching Creation Science from a Biblical Perspective – an overview

Teaching Creation Science from a Biblical Perspective – an overview will seek to provide training as to how to effectively teach students from a Biblical perspective. It will cover four basic points of Creation Science, giving a brief overview of each, and then present practical ideas for hands-on, mentally stimulating projects to teach students. The webinar seeks to enhance the teaching of Creation Science making it applicable across all disciplines of study.

Summary of Content

- **Introduction:** *Teaching from a Biblical perspective*
- **Focus 1:** *What is a Biblical Worldview?*
- **Focus 2:** *Creation & Science*
- **Focus 3:** *Geology & Fossils*
- **Focus 4:** *Biblical Archaeology & Anthropology*

What is a Biblical Worldview?

What is a Biblical Worldview? will seek to provide training as to how to effectively establish and teach a Biblical worldview to students. It will cover the essentials of a Biblical worldview, as well as teaching and training insights. The webinar does not just seek to simply explain what is meant by a 'Biblical worldview' but to facilitate a new perspective on teaching students from a perspective that is applicable across all disciplines of study.

Summary of Content

- **Introduction:** *What is Truth?*
- **Focus 1:** *The Bible as authority*
- **Focus 2:** *The Bible vs religion*
- **Focus 3:** *The Bible vs atheism*
- **Focus 4:** *The importance of establishing a Biblical worldview*

Creation & Science

Creation & Science will seek to provide training as to how to effectively teach creation and science from a Biblical perspective to students. It will cover four points within creation and science, establishing the basic foundations of what we mean by creation, science and design. It will also cover practical and hands-on examples to help effectively teach students. The webinar does not just seek to 'teach' individual subjects but to facilitate a new perspective on teaching creation and science that is applicable across all disciplines of study.

Summary of Content

- **Introduction:** *Science vs Religion?*
- **Focus 1:** *What is a creation?*
- **Focus 2:** *What is science?*
- **Focus 3:** *Recognising a design.*
- **Focus 4:** *Practical teaching ideas.*

Geology

Geology will seek to provide training as to how to effectively establish and teach practical geology from Biblical perspective to students. It will cover the basis of geology, while establishing our starting point for all study – the Bible. The webinar will also teach about where the anti-Biblical agenda in geology came from and how to combat it within the curriculum, as well as covering the basics of flood geology.

Summary of Content

- **Introduction:** *What is a rock?*
- **Focus 1:** *Starting from the Bible*
- **Focus 2:** *Lyell on Layers*
- **Focus 3:** *Flood geology*
- **Focus 4:** *Practical examples*

Fossils

***Fossils** will seek to provide training as to how to effectively teach palaeontology from a Biblical perspective to students. Fossils are often trumped as the 'ultimate proof' of evolution but the webinar will deal with true evidence for the Bible, while seeking to show how students can be engaged over the issue using critical thinking. The webinar will also help establish a 'hands-on' approach to learning, helping to create a practical and engaging learning platform for students.*

Summary of Content

- **Introduction:** *The ultimate test*
- **Focus 1:** *Fossils vs religion*
- **Focus 2:** *Time or process*
- **Focus 3:** *Living fossils*
- **Focus 4:** *Practical & hands-on teaching*

Biblical Archaeology

***Biblical Archaeology** will seek to provide training as to how to effectively teach hands-on Biblical archaeology to students. It will begin by establishing what is meant by Biblical archaeology, before covering both the theory and practical components of archaeology. A hands-on, practical approach is always cultured, with examples and ideas to engage students in archaeology.*

Summary of Content

- **Introduction:** *What is Biblical Archaeology?*
- **Focus 1:** *The right starting point*
- **Focus 2:** *Engaging with the past*
- **Focus 3:** *The genius of ancient man*
- **Focus 4:** *Teaching practical archaeology*

Anthropology

Anthropology will seek to provide training as to how to effectively teach anthropology, while cutting through the evolutionary assumptions and misinformation that often plague the classroom curriculums. The webinar will start by gaining a Biblical perspective, establishing man as being made in the image of God and looking at the origin of the races according to the Bible. It will then deal with the evolutionary assumptions and falsehoods, while seeking to show how students can be engaged over the issue using critical thinking.

Summary of Content

- **Introduction:** How do you study man?
- **Focus 1:** Man in the image of God
- **Focus 2:** Origin of the races
- **Focus 3:** Myth-information
- **Focus 4:** Case study – Neanderthals & evolution

Astronomy

Astronomy will seek to provide training as to how to effectively teach astronomy from a Biblical perspective to students, while also engaging them with practical activities. The webinar will begin by establishing a Biblical perspective of astronomy, dealing with issues such as the 'Big Bang', before providing practical ideas for teaching classical astronomy in the classroom. A Biblical perspective is given throughout.

Summary of Content

- **Introduction:** He made the stars also
- **Focus 1:** Big bang goes boom
- **Focus 2:** Times, signs & seasons
- **Focus 3:** The benefit of classical astronomy
- **Focus 4:** Navigating the night sky – practical ideas for teaching

Feedback on Joseph Hubbard

"Things are really moving in the area of creation science today and no one needs to feel intimidated about believing exactly what the Bible says about origins. Joseph has an enthusiasm that carries you along with him. He presents his topic with a gusto which is just what we need to communicate to the rising generation." C. Eastwood

"Thoroughly enjoyed the webinar; 'Teaching Creation Science from a Biblical Perspective'. Jo certainly knew his material and was an engaging speaker." W. Lutton

"Fascinating! Thank you for sharing your knowledge, which you present so well!"
A. Kwambana.

"He held us all captivated and even though I have personally read a lot on the subject myself, I still learnt even more and it was wonderful to get hands-on experience." H. Gissing

Other comments

"Taught with great science knowledge, and also grace. Thank you."

"Well presented and informative, thank you. It could have gone on longer, and I wouldn't have minded!"

Access to the webinars

The *eight webinars* are available via VOD at <https://nilsbirdtraining.com>.

Price

£5 per webinar, including *presentation slides*.
